**Biodegradable
Anti-Bacterial Wipes**

60 *wipes per pack* **24** *packs per case*

Ingredients

Water, Phonexyethanol, Peg-7 Glyceril Cocoate, Polysorbate 20, Glycerin, Perfume, Benzoic acid, Dehydroacetic acid, Chlorhexidine Diguconate, Cocamidopropyl Betain, Tetrasodium Edta, Citric Acid.

MADE 100% RECYCLED PACKAGING

React Biodegradable wipes packaging is made from Polyolefin Copolymer material which is 100% Recycled material. The foil/ packaging used by other companies cannot be recycled because they are laminated with polyethylene and PET.

100% BIODEGRADABLE WIPES

React Biodegradable Wipes are made from **100% cellulose** and therefore they are easy to recycle and can dissolve very quickly once in contact with water and nature. Other wipes are made from non-woven material, which cannot be recycled because its a mixture of Polyethylene and viscose.
